

Please fill out this page and send it signed, together with the required proofs back to our address. We will process your order once we have received the proofs.

Sale of dangerous substances and preparations according to § 3 and § 4 of the German Chemical Prohibition Ordinance (ChemVerbotsV) in the version dated July 18th, 2017

1. Substances and preparations that, according to the Ordinance on Hazardous Substances, are marked with one or several of the following symbols and H phrases: **GHS02 + H224, H241, H242; GHS03; GHS06; GHS08 + H340, H350, H350i, H360, H360F, H360D, H360FD, H360Fd, H360Df, H370 oder H372** may by mail order only be sold to resellers, professional users or public research or examination institutes or educational establishments.
2. These substances and preparations may only be sold if you confirm to us that you
 - are a professional user,
 - use these substances and preparations in an admissible form,
 - will not resell these substances and preparations,
 - have read up on the handling of the dangerous substance and the disposal of possible residues in the safety data sheet.

For proof of professional use, we require the following information and documents from you:

1. A copy of your business registration.
2. If you are a (self)employed restorer or a (self)employed artist, please provide proof like e.g. the membership in the association of restorers or in the association of visual artists.
3. Please specify the restoration project mentioning the customer and/or the intended use of the substances and preparations.

Restoration project, customer, intended use:

For public facilities for research, investigation or teaching, we require the purpose of use to be stated:

Research

Analysis

Education
